

Hello, my name is **Dominica Marciano**, and thank you for considering me to be class president, for the Class of 2019.

I am a diligent, passionate and proactive person. I believe in equality, and standing up for what's right. We, as the student body, deserve a person that will represent the class and change what needs to be changed.

I would love to put into motion, reforms that will help our school be a happier place. If you vote for me, I will try to arrange more dress down days. I will strive for equality and happiness to be a more vital part of our school.

I also try to be as active as I can in after school activities, such as Student Council, Volunteer Club, and softball. I believe we all should enjoy staying after school, and participating in sports or clubs with our friends; I hope if you vote for me, the school will be a more enjoyable place.

I will love for us as a class to come together to have the best junior year. I am a hard-worker and driven person, that will always listen to the voices of the student body. So, please vote for me, if you believe in the same ideas as I am trying to make a reality.
